The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 34, 37, 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Singleton.

Singleton teaches a latex (title). A flat configuration on a metal surface is disclosed (column 2 lines 53-56). Alkyl aryl sulfates containing an alkyl group having 4-30 carbons are disclosed (column 2 lines 56-59).

Claims 34, 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Tokuda.

Tokuda teaches a polycarbonate composition (title). Potassium methyl sulfate is disclosed (column 2 line 68). Sheets are specified (column 4 line 33). The examiner takes notice under MPEP 2144.03 that polycarbonates are elastomeric polymers.

No claims allowed.

.Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
